## **HOW TO READ RUNES?**

We can read the runes and suggest as psychosymbology by looking their palms. We can also use runes symbols for meditating by looking at our palm. This really works out. We should choose the runes symbol by reading our palmistry. For example: if we have

## **OTHALA SYMBOL**

This is said to be a fish symbol in palmistry. Then we can use this symbol for meditating purposes to receive the things we want. When we go with our own symbol what we have in our palm gives more benefit than other symbols.

## **RUNES MEANING AND PALM**

Runes symbol give us the gift that exactly matches with meaning it does not only use as psychosymbology but also as its own way.

Example: OTHALA SYMBOL:

It can be used for building assets and can become celebrity by meditating when you found in your hand. It is used for both. To fulfill the wishes of your property as its meaning describes and as well as celebrity when you meditate. Because it plays a role as celebrity symbol in palmistry and german alphabet 'o' which means property.

Karma is presented as symbols in palmistry to give us yogas (good luck) and avayogas (bad luck). If we use it in the proper way we can achieve our goal easily. It denotes our good karma and bad karma and settles in our palm as symbols.

This is the secret of runes and palmistry. My suggestion is rather practicing all the symbols in psychosymbology try to practice mysterious symbols that are presented on your palm.
